AFFIDAVIT

I have read and understand all provisions set forth in the Florida Green Home Designation Standard document and the Code of Professional Conduct. I agree to comply with all such provisions and understand that the provisions may change as time progresses. I pledge to maintain a working knowledge of the basis for the Florida Green Home Designation, and the documents used for certification including the Florida Green Home Standard Polices, Checklist and Reference Guide. I agree to report each certified Green Home to the Florida Green Building Coalition. I understand that this registration is good for one year and that I must continue to register each year to maintain good standing.

Signature of Certifying Agent: _____

1. Home Building Industry Experience

All three requirements must be successfully completed in order to register as an FGBC Certifying Agent.

1.1 Home Building Industry Experience

One year experience in the home building industry: Verification of experience will require written references to such activity in at least one of the below listed professions:

- Residential trade contractor or builder experience either on the jobsite or in management
- Superintendent or other jobsite supervision
- Licensed or qualified home inspector or certified energy rater
- Residential design or architectural work
- Residential land development management
- Green building verification for another green certification
- Construction consulting or training

Attach resume and/or description of experience with dates.

1.2 Home Building Industry Education

14 hours of Green Home Construction Education completed in the last two years.

- Courses must specifically emphasize Green Home construction techniques and concepts
- Course description/syllabus must be submitted with Home Certifying Agent Application
- Review of course work completed by the applicant is subject to FGBC approval
- Instructors may receive CE credits once for teaching an approved course

Attach course agenda, description, or course web link.
